

IN THE NAME OF GOD

L^AT_EX

December 30, 2020

L^AT_EX is a document preparation system for the T_EX typesetting program. It offers programmable desktop publishing features and extensive facilities for automating most aspects of typesetting and desktop publishing, including numbering and cross-referencing, tables and figures, page layout, bibliographies, and much more. L^AT_EX was originally written in 1984 by Leslie Lamport and has become the dominant method for using T_EX; few people write in plain T_EX anymore. The current version is L^AT_EX 2_ε.

$$E = \frac{mc^2}{\sqrt{1 - \frac{v^2}{c^2}}} \quad (1)$$

<Functions>

```
def add(a, b):  
    return a + b
```

```
def subtract(a, b):  
    return a - b
```

```
a, b = 4, 5  
print((subtract if a > b else add)(a, b)) # 9
```
